

VERSION 1.0 - 2023

MOHI MINDFULNESS MOMENTS

Welcome to the first of hopefully many future versions of MoHi Mindfulness Moments. For their first project, the members of the 2023-2024 AP Computer Science A course at Monarch High School wrote computer programs in the Java programming language that output these colorable designs. The goal was to create programs that would help you find a moment of calm, relaxation, and mindfulness as you concentrate on coloring in the intricate details of these designs.

Ben Scott, Class of 2027, created the cover art design, which was colored in by Arica Avila, Mental Health Advocate of Monarch's Wellness Center.

We hope you enjoy these creations!

Jon Cihlar (Teacher) and the members of the 2023-2024 AP Computer Science A Course
