# MoHi MINDFULNESS Moments

# MoHi Mindfulness Moments

Welcome to the second edition of MoHi Mindfulness Moments. For their first project, the members of the 2024-2025 AP Computer Science A course at Monarch High School wrote computer programs in the Java programming language that output these colorable designs. Their goal was to create programs that would help you find a moment of calm, relaxation, and mindfulness as you concentrate on coloring in the intricate details of these designs.
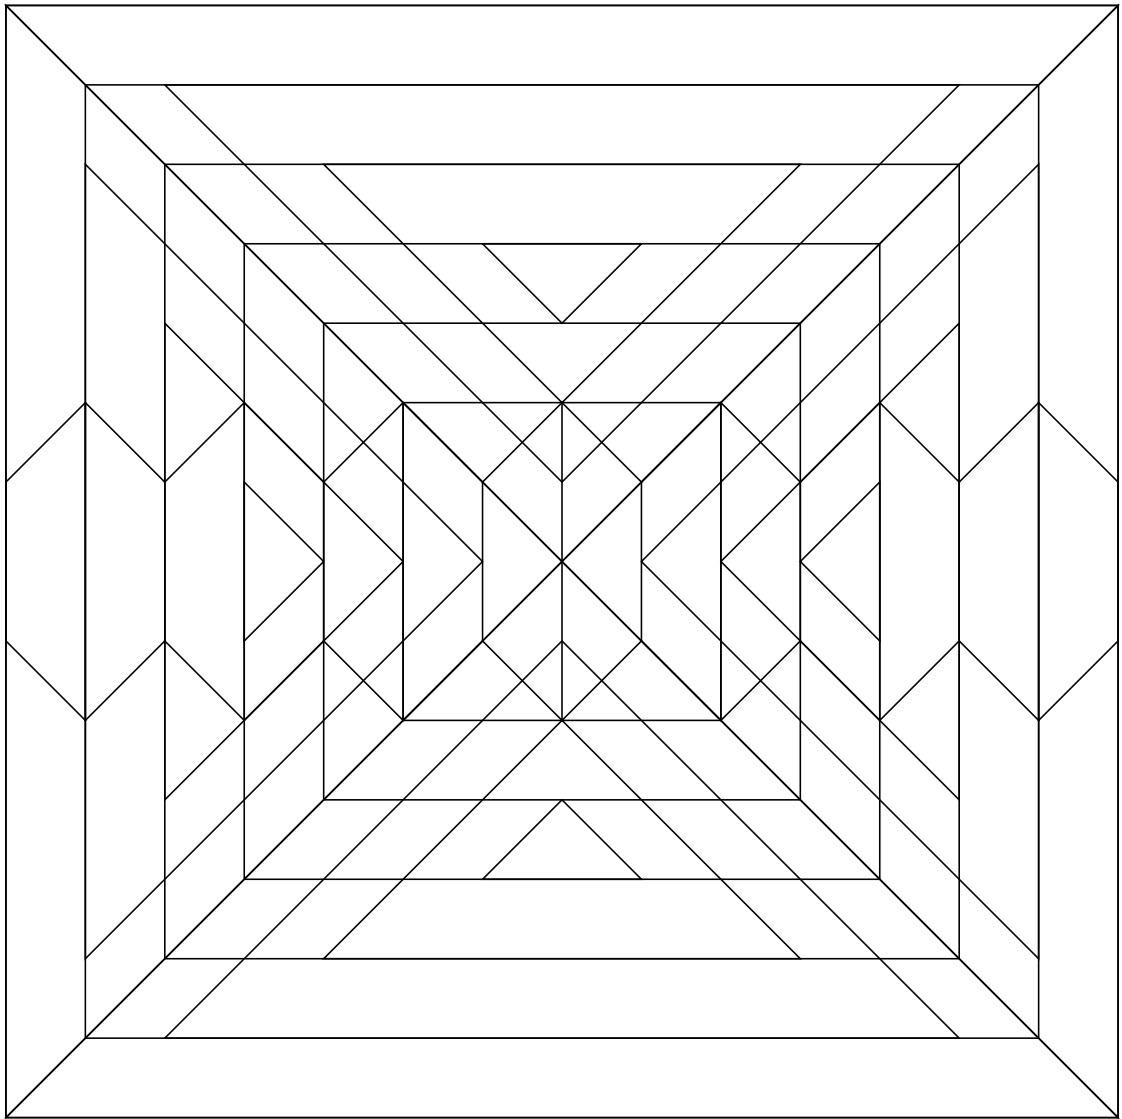

Owen Gardner, Class of 2026, created the cover design. Francie Hernandez, a student at Monarch K-8, took it to another level with her coloring.

We hope you enjoy these creations!
Jon Cihlar (Teacher) and the members of the 2024-2025 AP Computer Science A Course
